

FIG. 1

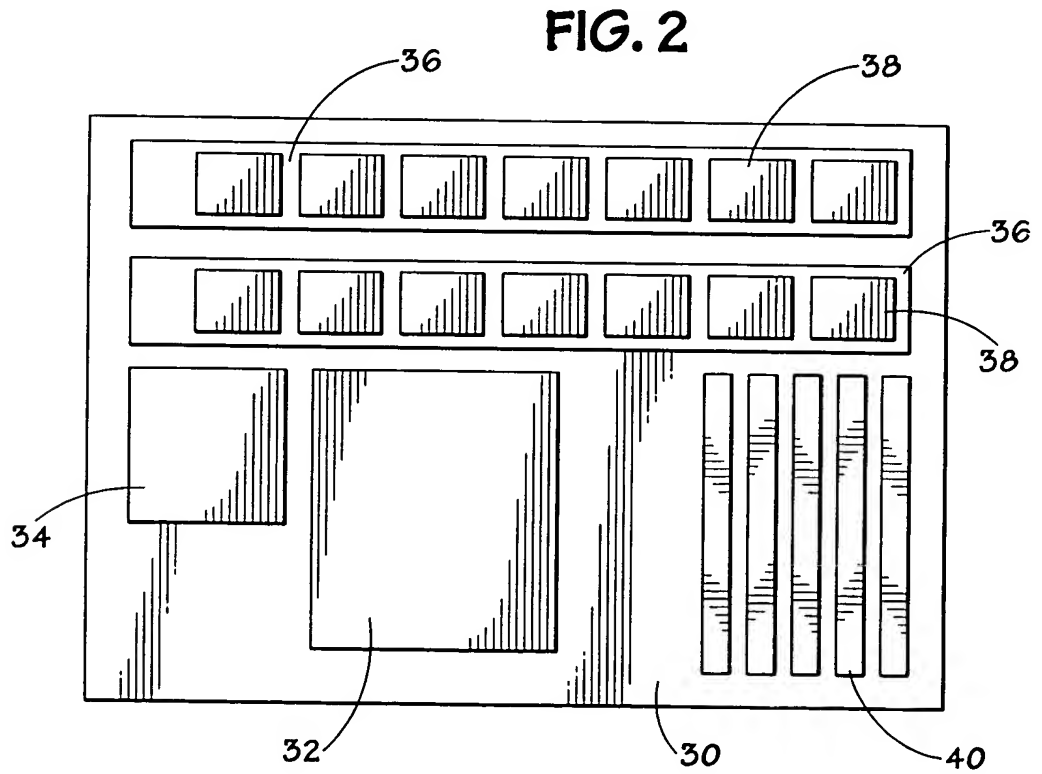

FIG. 2

A cross-sectional view of a multi-layered structure. The structure consists of several layers and components. At the top, there is a layer labeled 44. Below this, there is a layer labeled 46. A central layer is labeled 43. Below the central layer, there is a layer labeled 41. The bottom layer is labeled 60. On the left side, there is a component labeled 52. On the right side, there is a component labeled 51. Below the central layer, there are two components labeled 45. Below the bottom layer, there are two components labeled 47. At the very bottom, there are two components labeled 70. On the far left, there is a component labeled 74. On the far right, there is a component labeled 54. The structure is shown in a cross-sectional view, with hatching used to indicate different materials or layers.
